

Rennicks (UK) Ltd trade association representation

We are members and provide active support on 3 trade associations and a BSi committee;

ARTSM – Association for Road Traffic Safety and Management

REMA - Retroreflective Equipment Manufacturers Association

LASMA - Local Authority Sign Makers Association

British Standards Institute

Trevor Wren through his sign manufacturing experience & retroreflective sheeting knowledge is a member of B/509/3 committee, Construction Of Road Traffic Signs. B/509/3 is responsible for providing the BSI input to CEN/TC 226/WG 3 in establishing harmonised European Standards across EU member countries.

ARTSM

ARTSM is an informed and influential force in the Highways and Transportation area working closely with the Department for Transport and Highways Agency to benefit Members through its 6 working groups seeking to influence technological developments to improve standards in traffic engineering and operations.

David Skinner and Trevor Wren are both members of the Executive committee.

Trevor Wren through his sign manufacturing experience & retroreflective sheeting knowledge chairs the following working groups;

WG2 (Traffic Signs Working Group) which consists of established retroreflective sheeting suppliers, the majority of UK sign manufacturers, post & fixing suppliers, substrate suppliers and signing software suppliers.

National Highway Sector Scheme 9A for the manufacture of permanent and/or temporary road traffic signs.

This group represents ARTSM & LASMA sign manufacturers plus training bodies delivering N/SVQ's covered by this scheme. This National Highway Sector Scheme Document (NHSSD) relates to the quality management system requirements for the assembly of permanent and/or temporary road traffic signs. It sets out to identify a common interpretation of the current BS EN ISO 9001 standard for Organizations and Certification Bodies engaged in the Sector.

REMA

REMA is a proactive association with 9 working groups representing member's interests and working closely with the DfT, HA and specifiers seeking to influence technological developments to improve standards.

Trevor Wren is a member of the REMA Council and also chairs the Marker Posts and Street Furniture sub committee and represents REMA on B509/3.

LASMA

LASMA represents Local Authority Sign Makers across the UK and Trevor Wren is a member of the main LASMA Committee.

Highways Agency

Trevor Wren is a member of the HA technical projects board responsible for updating Series 1200 Specification for Highways Works in line with changes in EN Standards.
