

## Nikkalite® Fluorescent Yellow Green Battenburg Kit Options

### Introduction

Rennicks now offer two performance levels of Nikkalite® retroreflective sheetings for fleet managers to consider when specifying battenburg liveries:

- High conspicuity microprismatic sheeting 92844 offering 10\* years' warranty
- Mid-range conspicuity glass bead sheeting 8594 offering up to 5 years' expected performance life

**Nikkalite® Flexible Crystal grade 92844** offers the highest performance in terms of conspicuity, retroreflectivity and durability. Crystal grade is designed to be used where high-conspicuity livery schemes are required for both motorway and urban patrol vehicles.

- Nikkalite Flexible Crystal Grade offers very high retroreflectivity making the vehicle very conspicuous to other road users during the hours of darkness.
- Nikkalite Flexible Crystal Grade complies with the HOSDB (previously PSDB) High Conspicuity Livery for Police Vehicles which recommends the minimum performance for Battenburg liveries.

### Nikkalite® Flexible Engineering grade 8594

For other vehicle types where the highest performing sheetings are not critical we now offer a mid-range conspicuity sheeting, consisting of glass beads embedded within a transparent film that is bright, durable, flexible and impact resistant.

### \*Performance life

#### Nikkalite® Flexible Crystal grade

Warranted life when processed by Gold Converter, applied in line with NCI procedures & exposed vertically, Terms and Conditions apply.  
For kits processed by all other Converters, see Terms and Conditions.

#### Nikkalite® Flexible Engineering grade 8594

FEF fluorescent yellow green can be expected to have a useful working life up to 5 years.

### Reliability of information

All recommendations and technical information contained herein are based on experience and tests, which the manufacturer believes to be reliable, but their accuracy and completion are not warranted. The user is cautioned to undertake tests to determine the suitability of a particular product for the intended application.

### Warranty

Nikkalite® & Hi-S Cal® products are warranted to be free from defects in materials and workmanship at the time of their sale.

Subject to paragraph two hereof, Nikkalite® & Hi-S Cal® products are sold without any warranty whatsoever, including warranties of merchantability or fitness for a particular purpose. The sole remedy for failure of Nikkalite® & Hi-S Cal® products to conform to said warranty is the replacement of the defective products; neither the manufacturer nor the seller shall be liable for any loss, damage or injury, direct or indirect, consequential or incidental, arising from the use of or inability to use said products.

Nikkalite® & Hi-S Cal® products sold in the United Kingdom are sold with a warranty subject to the Warranty Agreement between Rennicks (UK) Limited, Nippon Carbide Industries Inc., and the sheeting converter.
